

REMARKS

It is respectfully submitted that step (1) of claim 1, reciting:

(1) a step of staining cells in a hematological sample by treatment
with a hemolytic agent, with a fluorescent dye capable of
differentiating between fluorescence intensity, mature leukocytes,
leukocytes with abnormal DNA amount and immature leukocyte,

as amended by an Examiner's Amendment in the Notice of Allowance and Notice of
Allowability of July 23, 2009, is grammatically incorrect, and requires a corrected recitation as
set forth hereinabove.

This matter was telephonically brought to the attention of the above-identified Examiner
by the undersigned attorney on September 18, 2009. The Examiner suggested that the necessary
grammatical corrections be made by an Amendment Under 37 C.F.R. § 1.312.

Thus, this amendment is made simply to correct the grammatical error, and no question
of new matter or questions of further search arise.

Therefore, entry of this Amendment Under 37 C.F.R. § 1.312 is respectfully submitted to
be appropriate and proper.

Respectfully submitted,

SUGHRUE MION, PLLC
